

# Steven Ossorio

Software Engineer with a keen eye for detail

## Experience

### Engineering Manager - Crypto Project, Spring, Texas

Dec 2021 - July 2022

- Provided consultation in regards to the Pros and Cons of integrating AWS to the founder application.
- Lead a team of 8 with various background/skills ranging from Unity 3D developer, Blender, Solidity and Web Development.
- Learned basic Solidity in order to communicate with the Solidity developer the demands of the founders.
- Attended consensus 2022 to assist founder in multiple front, first in sharing the project knowledge to other possible consumers/investors and second further learn what other projects are present in the market and how far Solidity/Web3 is integrating the market globally.
- Maintain constant watch over the product development making sure deadlines were met.
- Interacted with Unity Developer on each step of development and used Oculus Rift 2 for constant real world testing.

### Software Engineer - Wayfair, Boston, MA

Feb 2019 - Feb 2020

- Improved end user experience of Wayfair's in-house application, resulting in an increase of application submissions and total of orders placed by 45%.
- Successfully lead integration of post-order for Wayfair's International Financing product resulting in an increase of orders by 20% within Canada.
- Help support and onboard new hires to the team by sharing knowledge regarding Wayfair's products resulting in a 20% increase in team tasks to be completed.
- Integrate API monitoring through DataDog resulting in improved API response time with 3rd parties by confirming contracted expectations were being met.
- Critically debugged post launch performance issues relating to the loading of site messaging.
- Collaborated with vendors to successfully launch new products and improve API changes.

### Production Assistant - Don Karpov, New York, New York

Jan 2015 - Dec 2017

- Maintain general IT solutions including Adobe Software Suite set up, plug-in installments, software and firmware updates, optimizing data archive structure, and data recovery.
- Routinely performed sorting and reinforcing delicate timelines, audio recording, and time-code synchronization.

### Foreign Agriculture Service Intern - Embassy of the United States of America, Agricultural Trade Office, Tokyo, Japan

Nov 2012 - Dec 2013

- Assisted with development and implementation of marketing strategies targeting U.S. agricultural companies in Japanese Markets to improve business conditions.
- Supported the U.S. Embassy at major international trade shows to promote American agriculture in Japan, including the Supermarket Trade Show and FOOD EX.

## Coding skills

JavaScript

React JS

HTML5, CSS3

GraphQL

Redux

MySQL, PostgreSQL

Node JS, Express JS

AWS

Solidity

## Project Management

Jira

Slack

## Languages

English  
Native

Spanish (Spain)  
Fluent

Japanese  
Beginner

Korean  
Beginner

## Certificate

- AWS Certified Cloud Practitioner
  - Issued Sep 2022 - Expires Sep 2025
  - Credential ID AWS02707072
- CS50x certificate awarded by Department of Computer Science Harvard University

## Education

### **BS in International Business - Temple University Japan Campus, Tokyo, Japan**

May 2009 - Jun 2014

- Obtain first place in both Ted mills computer information systems business venture competition and Asian business benture competition.
- Provided support to Fukushima after the Japan 2011 earthquake afflicting Japan.

### **App Academy, New York, New York**

Sept 2017 - Dec 2017

- Completed 1,000-hour coding bootcamp with an acceptance rate under 3%.
